## GBM File Specification for Large Format Printing

### Applications (Mac OSX Preferred)

- Quark Express up to Version 7.0
- Adobe Illustrator up to Version CS3
- Adobe Photoshop up to Version CS3
- Adobe In Design up to Version CS3
- Freehand up to Version MX11
- Coral Draw up to Version X3 (13)
- Adobe Acrobat PDF up to Version 8

### Artwork Specifications

- Artwork must be set up to final print size or in pro with at least 3mm image bleed around all sides
- All images must be saved in the following formats  
EPS, TIF, JPG

### Supplied Artwork

- All artwork can be supplied on either of the following  
CD/DVD, EMAIL, FTP WEBFLOW or YOU SEND IT account  
Files sent EMAIL or FTP should be identified clearly in a folder with  
client name or job reference
- Artwork supplied must have all images and fonts
- Artwork supplied must have a proof for content
- Files sent via EMAIL or FTP should have a PDF attached for content
- If no proof has been sent then GBM will PDF the final print file for client approval
- Unfortunately, if no proof or approval has been given then GBM cannot be held responsible for any problems when printed

### Colour Management

- Listed below is the colour workflow for all large format printing devices –

HP 5500 Designjet	-	CMYK
Epson 10,000cf	-	CMYK
Zund UV curable	-	CMYK

Durst Lambda (POS)	-	RGB/CMYK - both acceptable
Durst Lambda (Photographic)	-	RGB

All scans must be supplied in the relevant colour space

- If requested, Pantone Spot Colours will be matched as close as the print process allows
